Train the trainers: Teaching an introductory workshop in digital preservation

Alexia Katsanidou\textsuperscript{1}, Astrid Recker\textsuperscript{1}, Laurence Horton\textsuperscript{2}

Course content

The course focuses on the organisational dimension of digital preservation and requires no prerequisite knowledge.

It consists of six modules:
1. What is digital preservation?
2. OAIS Reference model
3. Designated Communities
4. Policies
5. Licenses
6. Trusted digital repositories

Materials and license

Presentations in .pptx format, slide-by-slide notes for each module, and exercises are available under a CC-BY license

Access to course materials

is provided through our online learning platform ILIAS. Contact us for details!
