How long should I keep my data after the end of a project?

What happens to my data when I leave my institution?

I’m collaborating, whose policy wins?

Who can I go to locally to get help in this area?

Who owns my data?

Your data?
The Resources

Library data services

- Data services
- Data librarian
- IR accepts data
- Data repository

University data policy

- Type of policy
- Policy contents
The results

Journal Article

Published Dataset
Challenges in reusing data

- **Data collection**
  - Reclassifying policies
  - Discovery of system-wide policies

- **Fair Use**
  - Releasing links to institutional policies vs. releasing full policies in the dataset

- **Sharing with others**
  - Not being able to share that dataset as a corpus
  - Determining what data can be shared at what time
Thank You
