

# DMPonline recent changes & future plans

An overview of the DCC's new service model, how to contribute to the user group and the development roadmap

9th April, 2019 - Holiday Inn,  
Manchester Piccadilly, Manchester

#UsingDMPonline

The following points will be covered:

Communication

New deployments

User groups

AOB

# Improving communication DMPonline -> institutions & institutions -> DMPonline users

- efficient
- quick

What works for your institution?

Printed  
material/power  
point

presentations

- institution able to add their own branding

Social media

Monthly  
Newsletter

Monthly  
gotomeeting

Communication

## Social media

### Twitter

- all info
- announcing workshops
- new features
- bugs....

### LinkedIn (?)

- links to blogs/youtube videos
- announcing conferences

### YouTube

- using DMPonline for researchers
- features/functionalities for users

### Facebook (?)

- more engaging content
- more informal/friendly content also for researchers

Communication

## Making the communication smoother

Monthly  
gotomeeting

- once a month 60 minutes call
- we can discuss any bugs/ comments/ questions
- community exchange knowledge
- joined with Sam (software developer) & Sarah
- we can have proposed topics and feature some topic each month

Communication

## New DMPonline deployments

You can see what are our developers currently work on github:

<https://github.com/DMPRoadmap/roadmap/projects/5>

The screenshot shows a GitHub project board for the repository 'DMPRoadmap / roadmap'. The board is organized into four columns: 'Pending', 'In progress', 'Review', and 'UAT'. Each column contains several issue cards. The 'Pending' column has 5 issues, 'In progress' has 3, 'Review' has 5, and 'UAT' has 5. Each card includes a title, an issue ID, the assignee, and various labels such as 'bug', 'templates', 'effort-small', 'optimization', 'plans', 'admin', 'orgs', 'user', 'accessibility', and 'effort-medium'. The board is updated 39 minutes ago.

New deployments

9th April, 2019 - Holiday Inn,  
Manchester Piccadilly, Manchester

#UsingDMPonline

## Monthly Newsletter

Monthly updates/ news for DMPonline administrators

### Proposed content

- 1, software developers updates/news
- 2, important days (announcing user groups, workshops and gotomeetings...)
- 3, video - featuring always some DMPonline function
- 4, any other general announcements about DMPonline
- 5, User case story
- 6, Funders updates

Communication

## Service status updates

More regular updates about anything that will go live  
- these will be send out more often e.g. every two weeks (anytime when we will push something to go live)

Communication

## New DMPonline deployments

- User Groups for our users in Netherlands & Manchester
- Triggering questions (e.g. if human participants are involved - speak to GDPR team.. etc)
- Machine actionable DMPs (DOI, capacity planning - knowing how much data there will be - being able to plan the costing etc.)
- Usage statistics - more info about e.g. how many plans each user created / how many questions did the user answer in the plan
- Versioning - different statuses for plans e.g. draft/active/submitted

New deployments

## User groups

- we are inviting our subscribed DMPonline institutions for user groups
- feedback gathering
- new functions discussions
- understand how you need the DMPonline to work for you
- more regular
- we have a big community in Netherlands/Finland - knowledge exchange

User groups

Is there anything else you would like to suggest or something else that would work well for your institution?
