Archive Preserve & Share

| RDM policies | £ | Training and guides |

Advocacy (senior mgmt & researcher)

Think about the components of a Research Data Management service

Based on the strengths and weaknesses you identified in the CARDIO quiz:

- Draft a list of actions needed at your institution

- Attempt to prioritise your list and pencil in timeframes – *consider quick wins!*

- Decide who needs to be involved to make this happen?

- Discuss how to make these plans public? (i.e. to meet the EPSRC requirement)

Action	Timeframe	People
