DMPonline: What's on the Horizon?
DMPonline: What's on the Horizon?

Diana Sisu
DMPonline new features

- Priority is as set in the Roadmap project: machine-actionable DMPs

- Features to be released shortly on DMPonline:
  - Machine-actionable organisation field linked to Research Organisations Registry (ROR)
  - Research Outputs
  - Machine-actionable grant ID field

- Writing specifications for Roadmap features
  - New plan creation wizard
  - Plan versioning
How does DMPonline add new features?

- Based on customer requests from existing community
- Through developments in common code base
- As part of new contracts, e.g. new subscribers, tenders
- As part of funded collaborative projects
- We always need to ensure that it will work with our community prior deployment!
Testing Wellcome Trust Template visibility settings again

Please list your anticipated research output(s).
Note that this is optional. We recommend that you fill this towards the end of your project. Go to Help page for more details.

**DMPonline multi-tenancy model**

- Aim is to customise look and feel of the tool, to make it appear as an institutional application
- Enhanced customisation
- Individual organisations
- National services
Sample multi-tenancy sites – University of Manchester

Welcome to DMPonline at the University of Manchester

This instance of DMPonline is provided by the University of Manchester to help you write data management plans. Create an account to access guidance, advice and template answers from the University of Manchester. Once you have an account you can link this to your University account so you can log in with your University of Manchester credentials.

If you have difficulty creating an account or using DMPonline please contact researchdata@manchester.ac.uk.

https://dmponline.manchester.ac.uk/

https://dmponline.manchester.ac.uk/
Sample multi-tenancy sites – Umea University

Welcome to DMPonline at the University of Umeå

DMPonline is provided by the Umeå University Library as a service to help you write and share data management plans that meet institutional and funder requirements.

If you are visiting DMPonline for the first time, you will have to sign up with a valid e-mail address and create a DMPonline account. Choose Umeå University from the drop-down list of available organizations. After creating a DMPonline account you can link it to your Uumu-id and use the Umu-id as login from then on.

For further information about research data management and data management plans see the Research data portal [https://www.umu.se/publicerar/funktionsdata].

https://dmp.umu.se/    https://www.umu.se/
Future challenges

• Whose data is it
• How does data input benefit the end user = the researcher
• How to get funders more involved
