

Collaboration to Clarify the Cost of Curation

Customising the Costs of Curation

Date: Monday 22nd February, 2016

Venue: 11th International Digital Curation Conference (IDCC)
[Mövenpick Hotel](#), Amsterdam City Centre, Amsterdam

Purpose of the Workshop

- to provide examples of current real world use of 4C project outputs, in particular the Curation Costs Exchange (CCEX), the Cost Comparison Tool (CCT), the 4C Roadmap and the Digital Curation Sustainability Model (DCSM)
- To identify use cases and requirements to indicate how the 4C work may usefully be adapted or developed, particularly in the context of Research Data Management (RDM)
- To consider any updates to the 4C Roadmap
