

## **Data Management Planning: what's happened, what's happening, and what's coming next**

IDCC2013 Pre-Conference Workshop

### *Short description*

This workshop provides overview, analysis and opportunity for discussion of recent developments in data-related policies in the UK, US, Europe and Australia. Speakers and participants include representatives of national data support services, DMP tool providers, and major research funders. The workshop concludes with a discussion of various aspects of data management planning, including a look ahead to expected shifts in data planning policy and practice over the coming year.

### *Who should attend?*

Anyone involved in the research data management process, notably data professionals (researchers, data managers, support officers), research funders, government agencies, publishers, and librarians and repository managers. The workshop will be relevant to delegates from all parts of the world.

### *Funding*

Free to attend, via funding from DCC

### *Organisers*

Martin Donnelly (Digital Curation Centre / DMP Online), Carly Strasser (California Digital Library / DMPTool)
