Question 2

Complete the sentences by typing the correct words in the blank spaces. Click 'Grade' to see if your completion is correct.

Data of which the owner cannot be found or of which the owner has died is called [   ] data. If data is made available in [   ] access and someone requests access to the data, only the owner may grant this permission. And that is difficult if they cannot be reached. Data archives attempt to solve this issue by including an article in the [   ], which arranges data to become [   ] access when a person cannot be reached anymore.
